USF CAMPUS TREE COMMITTEE HOSTS CLEAN UP EVENT

The USF Tampa Campus has over 19,000 trees, and these are one of our most valuable resources. Along with providing shade and refuge from the Florida heat, our trees help conserve energy, filter storm water, and remove carbon dioxide from the air.

The USF Campus Tree Committee will be hosting an event where community members can learn more about the trees we have on campus and help take care of them. The event will be held at the MLK Plaza on November 13, from 10 AM to 12 PM.
