

USF POLICE DEPARTMENT MEDIA RELEASE

DATE: January 26, 2016

CONTACT: Capt. Meg Ross
(813) 974-2451

SUBJECT: USF Police Conducting Grant Funded High
Visibility Enforcement for Bicycle and
Pedestrian Safety

The USF Police Department was awarded a \$14,607 grant from the Florida Department of Transportation (FDOT) to conduct high visibility enforcement and education as part of Florida's Bicycle/Pedestrian Focused Initiative. "The safety of our citizens is paramount," said Chief Chris Daniel, "this grant aids in our quest to promote traffic safety and reduce bicycle and pedestrian related crashes."

According to The Florida Department of Highway Safety and Motor Vehicles (DHSMV), traffic crashes in Florida resulted in 498 pedestrian fatalities, 7,467 pedestrian injuries, 135 bicyclist fatalities, and 6,520 bicyclist injuries. Based on the National Highway Traffic Safety Administration (NHTSA) Traffic Safety Facts, these rates nearly double the national average for pedestrians and nearly triple the national average for bicyclists.

"We aim to reduce these staggering figures in 2015-16," said Chief Daniel. The USF Police Department plans to conduct multiple education and enforcement details focused on bicycle and pedestrian safety. Grant details began in October and are scheduled to run through May 2016. These first days of the initiative have focused on education. Beginning in Mid-January, violators may receive warnings or citations.

Remember: Alert Today. Alive Tomorrow.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. This is crucial for ensuring the integrity of the financial data and for providing a clear audit trail. The records should be kept up-to-date and should be easily accessible to all relevant parties.

2. The second part of the document outlines the various methods used to collect and analyze data. This includes both qualitative and quantitative techniques, as well as the use of statistical software to process large datasets. The goal is to identify trends and patterns that can inform decision-making.

3. The third part of the document describes the results of the data analysis. This includes a series of charts and graphs that illustrate the key findings. The data shows a clear upward trend in sales over the period, which is attributed to several factors, including improved marketing strategies and increased customer loyalty.

4. The fourth part of the document discusses the implications of the findings. This includes a detailed analysis of the market conditions and the competitive landscape. The results suggest that the company is well-positioned to continue its growth, but it also identifies areas where further investment is needed to maintain its competitive edge.

5. The final part of the document provides a summary of the key points and offers recommendations for future action. It emphasizes the need for continued monitoring and analysis to ensure that the company remains on track with its strategic goals. The document concludes with a statement of confidence in the company's future prospects.
