

Environmental Science and Policy is an interdisciplinary field focusing on the science of ecosystems, as well as the policy and action required to solve problems relating to air and water pollution, climate change, resource sustainability, and more. The Policy & Sustainability Concentration includes course options in regulations and sustainability as well as electives in fields including wildlife studies, climate change, political science, GIS, and geography.

(Protect Biodiversity and Landscape)
(Outdoors/Indoors, Active, Field Work)

- Water Management District
- Department of Environmental Protection
- Environmental Consulting Firm

(Protect Biodiversity and Landscape)
(Data Analysis, Political, Interactive)

- Environmental Protection Agency
- World Wildlife Fund
- Department of Agriculture

(Assess, research, strategize cases relating to environmental legal matters)

(Research, Writing, Communications)

- Private Law Firm
- Environmental Protection Agency

the 1990s, the number of people in the UK who are aged 65 and over has increased from 10.5 million to 13.5 million (19.5% of the population).

There is a growing awareness of the need to address the health care needs of the elderly population. The Department of Health (1998) has set out a strategy for the NHS to meet the needs of the elderly population. This strategy is based on the following principles:

- To ensure that the elderly population has access to the services they need.
- To ensure that the elderly population is able to live independently for as long as possible.
- To ensure that the elderly population is able to live in their own homes for as long as possible.

The strategy also sets out a number of key objectives for the NHS to meet the needs of the elderly population.

- To ensure that the elderly population has access to the services they need.
- To ensure that the elderly population is able to live independently for as long as possible.
- To ensure that the elderly population is able to live in their own homes for as long as possible.

The strategy also sets out a number of key objectives for the NHS to meet the needs of the elderly population. The strategy also sets out a number of key objectives for the NHS to meet the needs of the elderly population.
