

Successes of the Graduate Thesis Program S ACD, The University of South Florida
April 2016

Cobbs:

John Bilson (Lectr, School of Architecture, The University of Texas at Austin)
Bryn Canty (Professor, Department of Visual Arts, California State University, Fresno)
Sarah Gamble (Adjunct Faculty, School of Architecture, The University of Texas at Austin)

degree of self -motivation and a strong which has a clear focus on
biological systems in a digital world of ideas and
architecture as an exercise in form and experience in the discipline
many thesis proposals we reviewed seem to reflect the School's focus on
human behavior and social pedagogy (11.c 01.a 62) (11.c 01.a 62) (11.c 01.a 62)

STUDIO CULTURE AND MAKING:

The students' engagement with design as identity is the basis of their project. The design process is a process of discovery and exploration. The students are encouraged to explore the possibilities of design as a form of self-expression. There is, however, a strong emphasis on the practical aspects of design, such as the use of materials and the development of a design process. The students are encouraged to develop a design process that is both creative and practical.

GOALS AND STRUCTURE FOR THE THESIS PROGRAM:

Many of the goals of the thesis program are to provide students with a strong foundation in design theory and practice. The program is structured to provide students with a strong foundation in design theory and practice. The program is structured to provide students with a strong foundation in design theory and practice. The program is structured to provide students with a strong foundation in design theory and practice.

Consequently, the thesis program is designed to provide students with a strong foundation in design theory and practice. The program is structured to provide students with a strong foundation in design theory and practice. The program is structured to provide students with a strong foundation in design theory and practice. The program is structured to provide students with a strong foundation in design theory and practice.
