Fall Enrollment 2015-16

Fall Enrollment Overview

The Fall Enrollment component collects student enrollment counts by level of student, enrollment status, gender and race/ethnicity. In addition, first-time student retention rates and the student-to-faculty ratio are collected. Every other year data on residence of first-time undergraduates is required and in opposite years, enrollment by student age is required to be reported.

Part B, Enrollment of students by age, is **required** this year.
Part C, Residence of first-time degree/certificate-seeking undergraduates, is **optional** this year.

Retention Rates
Part-time, First-time Bachelor's Cohort from Fall 2014

Academic reporters determine the cohort and retention as of the institution's official fall reporting date or as of October 15. Program reporters determine the cohort with enrollment any time between August 1 and October 31, 2014 and retention based on August 1, 2015.

The retention rate is calculated by the system after clicking "Save" on the screen. Exclusions are subtracted from the original cohort and the resulting adjusted cohort is used for calculating the retention rate.

Retention Data Reporting Reminders:

Include only **part-time, first-time bachelor's-seeking** students in this cohort.
Determine part-time using Fall 2014 attendance status (e.g. if a student was part-time in Fall 2014, report them in the part-time cohort regardless of their Fall 2015 status).
If there are no students to report in the cohort, enter zero. Do not leave the field blank.
Report in the exclusions box (line E7) the number of students from the cohort who left the institutionom theny ti31e fielme th Fr
