This project will place recycling signage on bins across campus. The signage will clearly display what can and can't be recycled, will display a Green Fact to encourage recycling, and will brand USF's recycling program as "Recycle a Bull". This will help to standardize USF's recycling program and will engage students by facilitating an interest in recycling. We currently have very high contamination rates across campus due to a lack of conformity among our bins. This project will encourage students to more actively and properly recycle.

The signage will encourage increased recycling across campus. This will ultimately help to reduce the amount of garbage being produced, which may help to lower waste disposal costs in the future. Additionally, the signage will facilitate a recycling culture on campus, which will help to reduce waste production, littering and associated cleanup costs. This project will not require
